Bluebeam training pdf

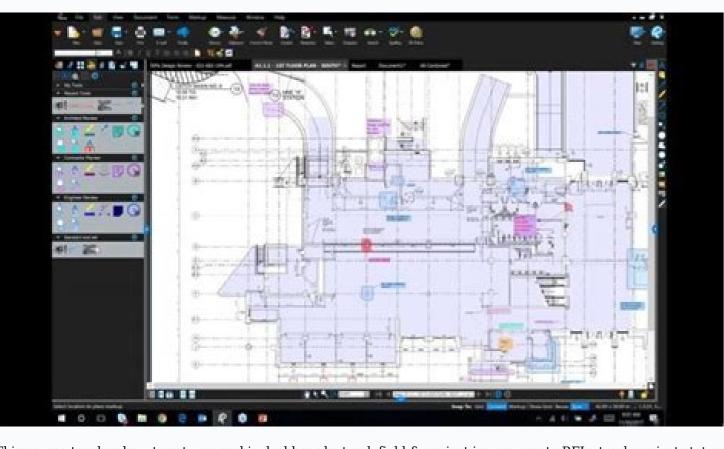

I'm not robot!

This course teaches how to set up graphic dashboards, track field & project issues, create RFIs, track project status, and much more in Bluebeam Revu. This course is for the advanced user who wants to learn how to use the tools in Bluebeam Revu for comparing and overlaying documents, organizing projects, automatic linking, and building custom tool chests and distributing them to team members to increase efficiency. This course teaches users how to use the highly customizable Punch List tools and features in Bluebeam Revu to improve close-out communications and let everyone track status and issues in real time. This course teaches users how to customize all symbols, tools, and processes in Bluebeam Revu to their company's specific needs. We also show how these customizations can be centralized so that everyone in the firm is working with the same tools. Revu Basics This eight-hour course is perfect if you are new to Revu or want to build your confidence working with the program. \$99 USD8 Hours Beginner Revu Power Pack Get all of the courses on Bluebeam University for Revu 2018 and above in one package.
